FEATURES

Horde (2d4+1) - Passive: When the Frogs have marked more than half their HP, their standard attack deals 2d4+1 damage instead.

Poison Touch - Passive: If a creature touches the Frogs in any way during their Spotlight (melee attack, pick up, etc), they must mark a Stress.

Binding Tongues - Action: Spend a **Fear** to make an attack against a creature. On a success, they suffer damage as usual and are Restrained. While Restrained in this way, a creature must succeed on a Strength or Agility action roll to escape, which they may make as their action on their Spotlight. While restrained, the creature counts as touching the Frogs for the purposes of the Poison Touch feature.
